

Active Shooter Incidents for Public Safety Communications

COURSE DESCRIPTION

Active shooter incidents and their response pose several unique concerns for all facets of public safety including public safety communications. There are a multitude of issues that make responding to an active shooter incident more difficult than other armed subject calls or violent in-progress incidents.

These types of incidents historically have garnered extensive media coverage and public scrutiny and have become a pertinent threat to public safety. As with any other type of emergency situation, the telecommunicator plays a vital role in the response to active shooter incidents.

As the providers of communications capabilities and responder safety, telecommunicators should be aware of the unique challenges posed by active shooter incidents and be prepared to address them well in advance.

This course helps to educate telecommunicators about the many intricate issues and challenges posed by active shooter incidents and their response and the role the telecommunicator plays in each.

Topics include:

- ▶ Phases of an Active Shooter Incident
- ▶ Active Shooter Incidents vs. School Shootings
- ▶ Law Enforcement, Fire Service and EMS Roles in Active Shooter Incidents
- ▶ Response and Secondary Dangers
- ▶ The Role of the Telecommunicator in an Active Shooter Incident
- ▶ Interaction with the Media
- ▶ Dealing with the Aftermath of an Active Shooter Incident
